Mobile App Development Project

WEEKLY TEAM PROGRESS REPORT

GENERAL INFORMATION

Group Name:	Group 9		
Mobile App Name:	Fittrack		
Phase Number:	☒P1 ☐P2 ☐P3	**Week Range:**	March 26- April 5

SPRINT GOALS

What feature/module did you target this week?	1. Development of core mobile UI screens based on wireframe 2. Implementation of navigation system using footer menu 3. Initial layout alignment to match wireframe design

ACCOMPLISHMENTS

Must be demo-able in Android Studio (GitHub) or APK (live Demo)	1. Initial layout alignment to match wireframe design 2. Successfully created multiple working screens 3. Implemented functional navigation between screens using footer navigation

CHALLENGES OR BLOCKERS

Development-specific issues (Android):	1. Layout did not initially match the wireframe 2. Errors and bugs
Human Resource-specific issues (team or time):	1. Need for multiple revisions to match team preferences

SOLUTIONS OR ADJUSTMENTS

Fixes applied, workarounds, or refactoring decisions:	1. Adjusted and rebuilt layouts to follow wireframe structure

INDIVIDUAL CONTRIBUTION MONITORING

Member	Role	Task Completed	%	Self-Rating	Remarks
Rocafor, Roxiz	**Front End**	Initial UI Screens	70	5	
Roxas, Hannah Kate	**Front End**	Draft on final designs	80	5	
Sales, Vince Andrei	**Back End**	Initial Codes	70	5	
San Francisco, Kyle	**Back End**	Initial Codes	70	5	

Each member must honestly report their contribution.

Self-Rating Guide:
5 – Led tasks, highly active
4 – Consistent contributor
3 – Moderate contribution
2 – Minimal contribution
1 – Little to no contribution

PLAN FOR NEXT WEEK

Tasks/Features	Assigned Member	Expected Output
Finalize Design	**Hannah**	Final Design
Implement Design	**Roxiz & Hannah**	UI Design
Database Creation & Integration	**Kyle**	Working Database
Login & Register(connected to DB)	**Vince**	Login & Register

SHORT REFLECTION

What did the team learn this week? (2–3 sentences)	The team learned the importance of strictly following the wireframe design to avoid repeated revisions, this will also help avoid confusion between team members if a single goal is set.

DEMO OR PROOF

Paste here screenshots or links to screen recording (must be updated with your GitHub repository as well). Place proper image captions.
